

## Powerful ingredients work together to protect your heart.

**L-arginine** is a vital amino acid that is best known for its cardiovascular benefits. In the body, L-arginine is converted to nitric oxide, which relaxes the blood vessels and regulates blood vessel tone and flexibility. This reduces stress on the heart, improves circulation and lowers blood pressure.

**Citrulline** is an amino acid that is metabolized to yield more L-arginine, which in turn provides additional nitric oxide. Citrulline helps optimize blood flow throughout the body and promote healthy energy levels.

**Red wine extract** is high in antioxidants, anthocyanins and polyphenols, which help protect the heart and reduce LDL oxidation.

**Pomegranate** contains superior antioxidants, known as punicalagins and ellagic acid. Pomegranate inhibits LDL oxidation, supports arterial wall strength and enhances the activity of eNOS, the enzyme responsible for converting L-arginine to nitric oxide.

The ProArgi-9 Plus formula also contains important ingredients such as folic acid, ribose, xylitol and vitamins B6, B12, K2 and D3. Together, these ingredients enhance the cardiovascular system for optimum heart health.

## About Synergy WorldWide

Synergy WorldWide, led by Founder and CEO Dan Higginson, is a world leader in health and anti-aging products. The highly capable team of executives has more than 70 years of combined experience in the network marketing industry and the determination it takes to achieve success in this industry.

Since Synergy was founded in 1999, it has established a proven track record of success in markets around the world. Synergy WorldWide is a division of Nature's Sunshine Products (NSP), a respected debt-free company with more than 35 years in the herbal-health industry.

# Good health is impossible without a strong heart.

The heart is a powerful muscle and the most important organ in the body. Therefore, maintaining optimum heart health and enhancing the cardiovascular system are critically important for long-term wellness. ProArgi-9 Plus, a component of Synergy's V3 Nutritional System, helps strengthen heart health by delivering the benefits of L-arginine to your circulatory system.

“L-arginine affects the entire vascular system. Because it makes arteries relax, blood flows better throughout the body. It also has an unexpected, positive impact on plaque build up. We can't ignore the power of L-arginine any more!”

—Dr. J. Joseph Prendergast, Member,  
Synergy Medical Advisory Board

L-arginine is one of the most significant nutraceuticals ever discovered, and its remarkable properties were validated by the 1998 Nobel Prize in medicine. Scientific studies have shown that L-arginine helps maintain already normal blood pressure levels, blood thickness and improves overall cardiovascular fitness.

**One serving of ProArgi-9 Plus contains 5,000 mg (5 grams) of elemental pharmaceutical grade L-arginine.**

Synergy's ProArgi-9 Plus is a revolutionary product that offers great taste, far-reaching health benefits and powerful support for the cardiovascular system. Formulated in collaboration with leading L-arginine researchers and other cardiovascular specialists, ProArgi-9 Plus combines the latest technology and superior ingredients to enhance heart health, fitness and overall longevity.

## Benefits of ProArgi-9 Plus

- Supports cardiovascular health
- Enhances blood flow to vital organs
- Combats the negative effects of premature cardiovascular aging
- Sweetened with xylitol to enhance oral health
- Great-tasting citrus berry flavor
- Anti-aging benefits
- Supports healthy sexual performance
- May aid in decreasing body fat
- Maintains healthy blood sugar levels already in the normal range
- May boost energy levels
